Fire System out of Service

I acknowledge that I have notified the Authority Having Jurisdiction (AHJ) that the Fire Alarm system will be out of service for the duration of the period described below as is required by the Fire Code.

Definitions:

Authority Having Jurisdiction (AHJ): The organization, office or individual responsible for approving equipment, and installation or a procedure. The Authority Having Jurisdiction may be (but is not limited to) a federal, state or local department or individual such as a fire chief, fire marshal, fire prevention bureau, building official, electrical inspector or others having statutory authority.

Fire Code: 901.7 Systems out of service. Where a required fire protection system is out of service, the fire department and the fire code official shall be notified immediately and, where required by the fire code official, the building shall either be evacuated or an approved fire watch shall be provided for all occupants left unprotected by the shutdown until the fire protection system has been returned to service.

Fire Protection System: Approved devices, equipment and systems or combination of systems used to detect a fire, activate an alarm, extinguish or control a fire, control or manage smoke and products of a fire or any combinations thereof.
